

United Healthcare Children's Foundation
Staff members & Board of Directors:

I just wanted to extend a very heartfelt "Thank You" to all of you for the generous grant donation that you made to my son for the therapy program that he needs. When I opened the box with the teddy bear in it and read the letter, I cried tears of joy. I am so happy to have some positive news to help us in our journey to help our son. Your financial assistance will help greatly and means so much to us. I will stay in touch with you over the course of the next year as we pursue this therapy for Joshua. Again thank you so much for all that you do to help children in need of medical care, and for allowing us this opportunity.

Thank you so much
for your
thoughtfulness

Thank you so much!
