CELEBRATING ALL THAT MATTERS

Thanks to generous supporters like you, the UnitedHealthcare Children's Foundation (UHCCF) had another amazing year providing medical grants for families and children in need. We are pleased to share that success with you as we recap our 2018 efforts. In 2019, we aim to reach a significant milestone – awarding our 20,000th grant. We think this calls for a celebration. And a big THANK YOU!

KENNETH

CONVERSE, TEXAS | AGE 9

Our sports star, Kenneth, has speech and oral motor function impairment due to Down Syndrome. With a UHCCF grant, he receives necessary speech and occupational therapy. A win for him and his family.

You Make the DIFFERENCE

Thanks to you, 2018 was the strongest year ever for the UnitedHealthcare Children's Foundation (UHCCF). Generous donors, sponsors and volunteers helped UHCCF award 3,242 grants, totaling more than \$4.9M to benefit children across the nation.

Since 2007, UHCCF has awarded 18,600 grants, valued at more than \$45.1 million. To date, we are only 1,450 grants away from our goal to award 20,000th medical grant by 2020.

In the last year alone:

- UHCCF Golf Classic events raised more than \$2.2 million.
- UHCCF created the Planned Giving "Leave a Legacy" program to enable future financial gifts.
- Started Team UHCCF, the new UHCCF run and walk fundraising program. In 2018, Team UHCCF ran the Twin Cities Marathon and 10-Miler, and is participating in 13 runs during 2019.
- UHCCF held three events at Topgolf, and will host eight more events across the country in 2019.
- UHCCF Hope Rides added the Mission Ride, a fun, southern-themed bike ride.
- Our Ambassador Program brought loyal UnitedHealth Group employee supporters together to plan local events, build awareness, and fundraise for UHCCF.
- A new program, Hope's Heroes, was created that enables UHCCF supporters to turn their fundraising idea into one that supports the UHCCF mission.

Thank you to our many sponsors, grant families, executive leads, event leads, and volunteers for your continued support and tireless energy. Together, we DO change lives!

Sincerely,

Matt Peterson

Meet a HERO

LUCAS

MECHANICSVILLE, VIRGINIA | AGE 10

Lucas has type 1 diabetes and takes two kinds of insulin to manage his blood sugar levels. His UHCCF medical grant made it possible for Lucas to get an insulin pump. He is so grateful for the opportunity to live a “normal” life without the frequent shots.

MADISON

CONNEAUT, OHIO | AGE 8

Madison was born with a rare congenital heart defect called transposition of the great arteries (TGA), where the aorta and pulmonary valves develop in incorrect positions, leaving her unable to breathe properly at birth. Madison’s UHCCF medical grant has helped cover expenses for ongoing treatments and additional surgeries.

CHLOE

POWDER SPRINGS, GEORGIA | **AGE 9**

Chloe was diagnosed at birth with Atresia, a medical condition causing her to be completely deaf in her left ear and partially deaf in her right ear. At the age of five, she began wearing Cochlear™ Baha® bone-anchored hearing aids to gain nearly 100% of her hearing on both sides. Chloe has received two UHCCF medical grants that helped provide financial assistance for the hearing aids and supporting equipment.

MARCUS

WEST JORDAN, UTAH | **AGE 8**

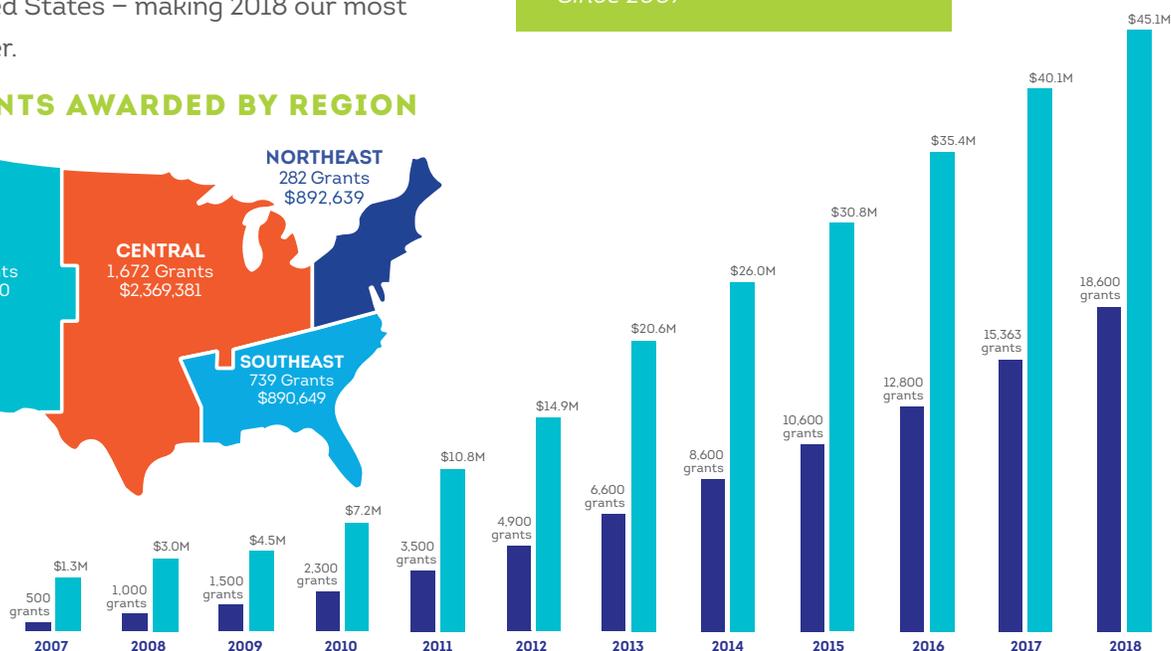

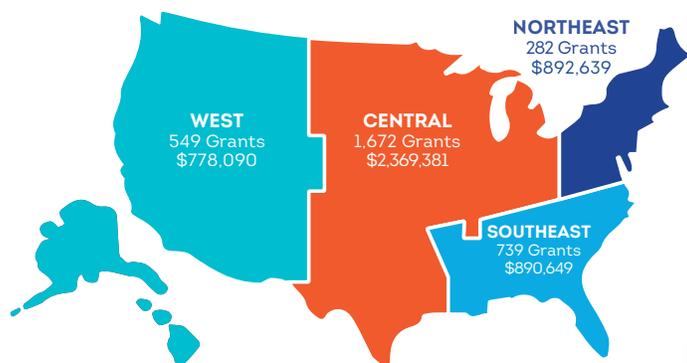

Marcus was diagnosed with speech delay at age two. He began receiving speech therapy through the school district but progress was slow. Marcus received four UHCCF medical grants to help cover the cost of the additional therapy he needed to help develop his speech and catch up with his friends.

Well on our way to awarding the 20,000TH MEDICAL GRANT

We are grateful for the support of generous donors, sponsors, and volunteers. In 2018, UHCCF awarded 3,242 grants totaling more than \$4.9M to enhance the clinical condition or quality of life of children across the United States – making 2018 our most historic year ever.

RAEAH

MANCHESTER, CONNECTICUT | AGE 11

Though at home for grades 3 through 5 due to illness, Raeah was still a star student. LARRY

HOWELL, MICHIGAN | AGE 16

Born with spina bifida and omphalocele (a large hole in the abdomen), doctors gave Larry a 20% chance of survival. Since then, he has gone on to receive 37 different diagnoses, including club feet that would prohibit him from walking. At age 9, he showed everyone and took his first steps. He enjoys riding his recumbent bike – purchased with the help of a UHCCF medical grant. Larry's can-do spirit is truly inspiring.

UHCCF Programs

Holiday Programs

The 2018 UHCCF Holiday Programs made it a celebratory season for UHCCF! Thank you to all the shoppers who supported us through the Online Holiday Auction, UHCCF Holiday Marketplace at U.S. Bank Stadium, and Lynch Creek Farm's sales.

Tickets for Hope

Tickets for Hope sold 391 tickets to 24 events in 2018. Help us increase that amount even more in 2019. Donate or purchase tickets on TIX4CAUSE.com. UHCCF receives a portion of the sale price of donated tickets.

ELIANNA

SOUTH PARK, PENNSYLVANIA | AGE 1

At one month old, Elianna was diagnosed with Primary Immunodeficiency Disorder. By 13 months, she had battled over 18 serious infections, including a life-threatening bacterial infection. With weekly doctor appointments and medications, out-of-pocket expenses quickly climbed. A \$5,000 UHCCF medical grant helped pay for her medical expenses so her family could focus on giving her the love, support, and attention she very well deserves.

BENNETT

CHESTER, MONTANA | AGE 3

Bennett is just 1 of 7 children in the world to be born with a genetic variant of the CAMK2B gene – leading to severe physical disabilities, cognitive and social/emotional disorders and delay, sensory processing disorder, non-verbal communication, cortical visual impairment, gastrointestinal issues, hypotonia and neuromuscular disorders. Yet, nothing stops her from sharing her bright smile. A UHCCF medical grant provides her family the financial support they need to care for brave Bennett.

Thanks from OUR FAMILIES

SUMMERLYN

FORT WAYNE, INDIANA | **AGE 5**

"In September 2017, Summerlyn was diagnosed with moderate to severe phonological processing disorder. This made it very difficult for her to speak, and caused her to be shy and nervous around people. A UHCCF medical grant enabled us to afford the speech and language therapy she needed and deserved. Now, she's excited to share what she's learning and confidently practices at home. We cannot thank UHCCF enough for this incredible gift."

- Summerlyn's Family

ISAAC

POTEET, TEXAS | **AGE 4**

"Our Mighty Ike has been through a lot. In February 2017, he was diagnosed with germ cell cancer. This required four rounds of rigorous treatment, including five straight days of chemotherapy. By June, he was determined to be cancer free. We can't thank you enough for the generous grant that helped pay for Isaac's medical bills. Thank you very much, we are very grateful."

- Isaac's Family

EVA

WEST HAVEN, CT | **AGE 7**

"Our Tinkerbell fan, Eva, has Spinal Muscular Atrophy Type 1. This causes her to be quadriplegic and ventilator dependent. Now over 40 pounds, she is too heavy to safely carry into the bathtub. A UHCCF grant helped us afford a ceiling lift. While we now easily glide her along the track, she feels like she's doing it on her own like a "big girl" – and flying like Tinkerbell!"

- Eva's Family

RILEY

TARPON SPRINGS, FLORIDA | **AGE 5**

"We wanted to send a huge thanks to you and the program. Without a UHCCF medical grant, we would not have been able to afford private speech therapy for Riley. We really appreciate this grant and what it has provided for Riley. Her speech is beyond better than when she started almost a year ago."

- Riley's Family

TESSA & ELI

SANTA ANNA, CALIFORNIA | AGES 6 & 4

This brother and sister team don't let health issues get in their way. Eli wants to be a famous snowboarder, while Tessa loves to dance. Tessa has type 1 diabetes, Celiac disease, and several food allergies. Her UHCCF medical grant pays for ongoing monthly medicines to keep her safe and healthy. Eli was diagnosed with Pulmonary Stenosis Atrial Septal Defect and has undergone surgery and numerous treatments. His UHCCF medical grant has helped pay for follow-up therapies.

How to Apply for a Grant

The UnitedHealthcare Children's Foundation offers medical grants that provide timely financial relief for families who have children with medical needs not covered, or not fully covered, by their commercial health insurance plan. Families do not need to have UnitedHealthcare insurance to be eligible. Please help us give the gift of hope to families in need.

Discover all the ways to help impact the lives of children and their families.

RALPH

WATER VALLEY, MISSISSIPPI | AGE 2

In February 2018, little Ralph almost died from a severe peanut allergy. With a UHCCF medical grant, he was able to receive oral immunotherapy – and would bring his Oliver the bear with him to every doctor appointment. Today, he's able to eat a full teaspoon of peanut butter without a reaction, bringing his family peace of mind.

THANK YOU!

Together, we DO change lives.

With your support, UHCCF can improve the lives of children and families across the nation. Since 2007, your donations have helped deliver over 18,600 medical grants totaling over \$45.1 million. And, we're just getting started!

ZOEY

OLDSMAR, FLORIDA | AGE 6

Zoey loves princesses. And like a princess, she never lets anything get in her way. Not even a Grade II Spinal Astrocytoma brain tumor that required multiple surgeries and chemotherapy treatments. Coupled with four MRIs a year to monitor and track the tumor's progress, a UHCCF medical grant has helped cover a variety of Zoey's health expenses.
