

The mission of UHCCF

Giving children hope... with your help!

The UnitedHealthcare Children's Foundation (UHCCF) gives medical grants to help children get health-related services that are not covered, or not fully covered, by their family's health plan. We are a 501(c)(3) charitable organization.

Since 2007, UHCCF has awarded more than **17,000 grants** and more than **\$42 million** to children and families across the United States. With your help, we continue to grow, giving hope to more and more children and families each year!

Legacy Heroes

Planned Giving Program

Help Kids. Change Lives. Leave a Legacy.

At the UnitedHealthcare Children's Foundation (UHCCF), we believe our grant kids are the heroes of our society. But, even heroes need help sometimes. With our **Legacy Heroes program**, you can change lives by **becoming their hero**.

As a nonprofit, we rely on the support of people like you to make our mission of hope possible. Your generosity drives us to do everything we can to live up to the privilege of offering a helping hand to these young heroes.

Supporting UHCCF through planned giving enables medical grants to children and their families in communities across the country. Your support today will continue to have an impact on future generations of young people. There are many options for charitable giving. We hope you consider one that works well for your needs.

Thank you for being a hero for our kids.
